DETAILED ACTION

Reasons For Allowance

1) The following is an examiner's statement of reasons for allowance: From a prior interview on 8/26/09 with applicant's representative a review of the prior art in relation to the currently claimed invention was determined to be analogous at best but not anticipatory nor obvious. The currently claimed invention differs from the prior art based on the following amendment:

"6. (Currently Amended) A method for producing an epitaxial wafer by depositing a film of epitaxial layer through an epitaxial growth over a top surface of a silicon wafer, said method comprising: ~~a cleaning for~~ cleaning a top surface and a back ~~surfaces~~ surface of a silicon wafer with a SC-1 liquid and a SC-2 liquid; a hydrophobicating cleaning, after said SC-1 and SC-2 liquid cleaning, for cleaning said back surface of said silicon wafer to be a water repellent surface; and a hydrophilicating cleaning for cleaning said top surface of said silicon wafer to be a hydrophilic surface, wherein after said SC-1 and SC-2 liquid cleaning, said hydrophobicating ~~hydrophobicating~~ cleaning, and said hydrophilicating cleaning are finished, a film of epitaxial layer is deposited through an epitaxial growth over said top surface of said silicon wafer, and wherein said hydrophobicating cleaning and said hydrophilicating cleaning are simultaneously performed."

The claimed invention primarily differs based on the step process for the SC-1 and SC-2 liquid cleaning processes for the epitaxial wafer which furthermore realizes a step of simultaneous cleaning resulting in the wafer undergoing hydrophobicating and hydrophilicating (on opposite sides of the wafer top and

bottom surfaces) steps at the same time, which in turn results in a more efficient but dual purpose process for the epitaxial wafer. Whereas prior art denoted singular steps including an option of hydrophilicating or hydrophobicating and not together less alone simultaneous.

Thus upon review of the claimed invention in conjunction to currently known prior art it is the examiner's position that case has met the conditions for patentability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
